

## Press Release

### Code Dx Wins “The Cutting Edge Application Security Solution for 2016” by *Cyber Defense Magazine*

**NORTHPORT, N.Y. – February 29, 2016 – Code Dx, Inc.**, a provider of an award-winning suite of fast and affordable tools that help software developers, testers and security analysts find, prioritize and manage software vulnerabilities, today announced that it has been selected by *Cyber Defense Magazine* (CDM) *2016 InfoSec Awards* as “The Cutting Edge Application Security Solution for 2016”. The winners are being recognized in the annual edition of the magazine exclusively distributed at the **RSA Conference 2016**.

“Being recognized as the cutting-edge application security solution of the year and considered the next-generation of innovation for the InfoSec industry is a tremendous honor,” said **Anita D’Amico**, CEO for Code Dx. “Our software vulnerability management system is filling a critical hole in the cybersecurity market, helping organizations effectively and affordably manage the software vulnerability discovery and remediation process and prevent malicious attacks that can be detrimental to any technology infrastructure.”

CDM is the industry’s leading electronic information security magazine. The InfoSec Awards recognize startup, early stage, later stage, or public companies in the information security space that have a unique and compelling value proposition for their product or service. The nominated products and services are judged by a panel of CISSP, FMDHS, CEH, etc. certified security professionals.

## **About Code Dx**

Code Dx, Inc. is a leading provider of easy and affordable software vulnerability management systems that enable software developers, testers and security analysts to find and manage vulnerabilities in software. The award-winning Code Dx solutions integrate the results of multiple static and dynamic Application Security Testing (AST) tools and manual reviews into a consolidated set of results for quick and easy triage, prioritization and remediation. The core technology was partially funded by Department of Homeland Security Science & Technology (DHS S&T) to help secure the nation's software supply chain. For more information, please visit [www.codedx.com](http://www.codedx.com) or contact Code Dx at (631) 759-3993 or via email at [Info@CodeDx.com](mailto:Info@CodeDx.com).
